SUMMARY

Software Developer with 1 year of hands-on experience in developing, testing, and deploying web applications using JavaScript, React.js, and Node.js. Strong experience in frontend development, REST API integration, and building scalable, responsive applications. Proficient in problem-solving, debugging, and collaborating in agile development environments.

WORK EXPERIENCE & PROJECTS

Junior Software Developer   **Dec 2024 - Present**

- Developed and maintained web applications using JavaScript, React.js, and Node.js.
- Built reusable UI components and implemented responsive, user-friendly designs using modern frontend practices.
- Developed and integrated RESTful APIs to enable smooth frontend and backend communication.
- Optimized application performance and incorporated system efficiency through code refactoring and best practices.

CRICMATCH - WEB BETTING APP   **Dec 2024 - Aug 2025**

- Developed responsive user interfaces using React.js, collaborating closely with backend developers using Laravel.
- Integrated frontend with backend APIs, handled state management, and ensured smooth user interactions.

FINZOR - BANKING APPLICATION   **Sep 2025 - present**

- Developed scalable and secure user interfaces using React.js, Redux for state management, and React libraries such as React Router, Axios, and Formik.
- Integrated frontend with backend APIs in collaboration with backend developers, ensuring efficient data handling and smooth user experience.

EDUCATION

DR.MGR.EDUCATIONAL AND RESEARCH INSTITUTE   **APRIL 2021 - MAY 2025**

Bachelor of Technology (B.Tech) in Computer Science and Engineering
CGPA: 8.5 / 10

ADDITIONAL INFORMATION

Technical Skills: JavaScript | React.js | HTML5 | CSS3 | Node.js | Express.js | Redux | REST APIs | JSON | Git | GitHub | VS Code | Full Stack Development | API Integration | Debugging

Languages: English, Tamil, Kannada

Certifications: NPTEL - Database Management System | FITA - Frontend Development Using React | MICROSOFT - Microsoft Power Platform
